Salvia **ROSE FLAME**

Developed and Introduced by Somerset

Pink has never been a popular color in *Salvia* because the very name has become associated with scarlet, but in Rose Flame we have a variety so much improved in habit, flower and color that we feel it definitely has a place.

The color is a rich coral rose shade that blends and contrasts beautifully with most flower colors except some of the pinks and reds. It is especially effective with blue, deep purple or white, and a bed combined with ageratum or lobelia makes a nice effect.

Rose Flame Flower Spikes

Plant of Rose Flame
Growing in the Seed Field

The plant is branching, compact, growing about 24 inches tall, and it flowers in early July from a March 15th sowing. The spikes are comparatively long for a *Salvia* and they are an excellent summer cut flower.

You can recommend Rose Flame to your customers who want a mass of color yet object to the harsh color tones of the usual Scarlet Sage.

Novelties and Items of Special Merit

HOLLYHOCK

Double Triumph Supreme. Color range of unsurpassed variety. Full double waved and fringed blooms. Early flowering and rust resistant to a high degree.

Pkt. \$0.50; 1/4 oz. \$1.00; 1 oz. \$3.50

DIANTHUS HEDDEWIGII LACINIATUS

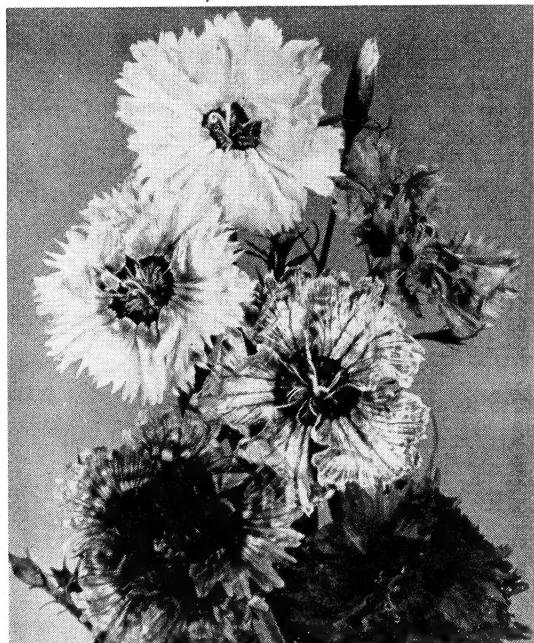

Gaiety. A uniformly giant, single, deeply fringed strain. The liveliest color blend in annual Dianthus. All who saw our trials this summer were impressed with its worth as a garden item.

Pkt. \$0.25; 1/4 oz. \$0.50; 1 oz. \$1.25

DIGITALIS

New Shirley Pastel Shades. A fine development which includes many new shades of apricot, cream yellow, rose pink and heliotrope. The colors are vastly superior to the usual strains offered.

Pkt. \$0.35; 1/4 oz. \$0.85; 1 oz. \$3.00

Dianthus Gaiety

Campanula Collina

CAMPANULA

Collina. A hardy blue bell introduced from Europe just before the war. Seed has not been available until this season. The plant produces a vigorous tuft of leaves which produce in May and June a mass of one foot stems covered with light blue bell-like blooms.

Pkt. \$0.50; 1/4 oz. \$1.25; 1 oz. \$4.00

CARNATION

New English Mixture. Produces from seed, flowers of greenhouse quality if given reasonable care and disbudded. Should be a good summer cut flower.

Pkt. \$0.75; 1/4 oz. \$1.75; 1 oz. \$5.00

GAILLARDIA

Tokay. One of the few perennials that can be depended upon to give summer color and cut blooms. Gaillardia are deservedly popular and when an unusual color like Tokay is introduced, it is worthy of a trial. The color is a rich wine orange.

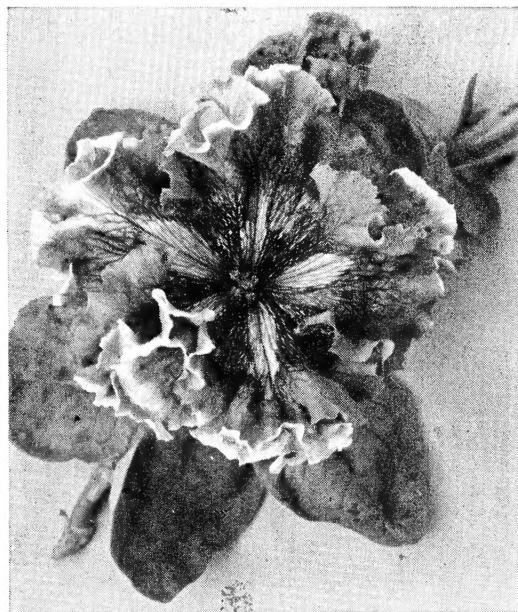

Pkt. \$0.75; 1/8 oz. \$2.00; 1/4 oz. \$3.50

IPOMEA

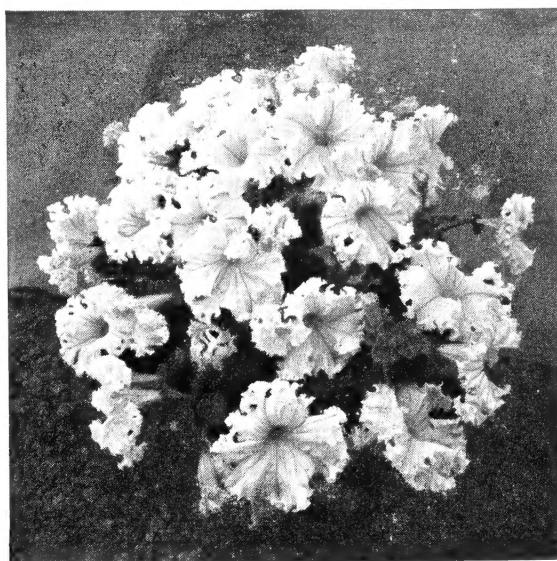

Blue Mound. Grows only to a height of 12 inches. The flower is about the same size and color as the popular and well-known Heavenly Blue.

Makes an ideal plant for borders and potting.

Pkt. \$0.50; $\frac{1}{4}$ oz. \$1.00; 1 oz. \$3.50

Petunia New Dwarf Giants

Petunia Grandiflora
Fringed White Mound

PETUNIA

Fire Chief. Gold Medal Winner A.A.S. The brightest red, dwarf erect hybrid petunia to date. Habit of the plant is medium dwarf with the flowers produced freely. With the publicity this variety will get and the popular color, there should be a good demand for plants.

Pkt. \$0.50; $\frac{1}{16}$ oz. \$1.75; $\frac{1}{8}$ oz. \$3.25; $\frac{1}{4}$ oz. \$6.00

PETUNIA

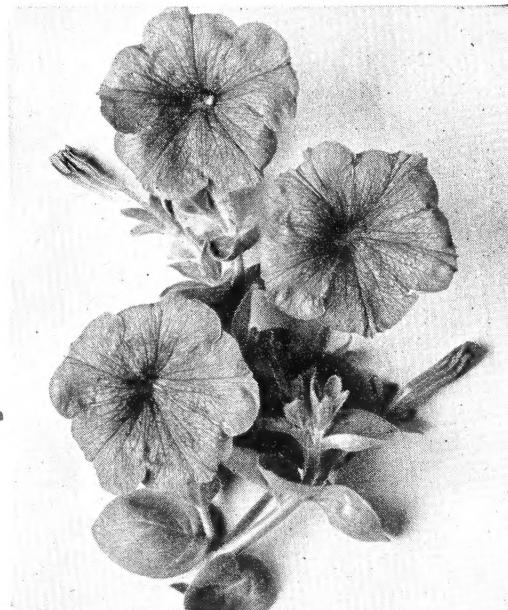

New Extra Dwarf Giant of California. Developed to fill the critical florist demand for a large flowered California Giant type that can be truly classified as a pot petunia. It is not unusual to have as many as five full sized blooms on a well grown plant at one time. Will often produce the first bloom by the time the plant is four inches tall. The color range is excellent and bright.

Pkt. \$1.25; $\frac{1}{64}$ oz. \$2.50; $\frac{1}{32}$ oz. \$4.00

PETUNIA GRANDIFLORA SINGLE FRINGED

White Mound. An excellent new white, compact, free flowering with masses of medium large heavily fringed blooms. Excellent for pots.

Pkt. \$0.75; $\frac{1}{64}$ oz. \$1.75; $\frac{1}{32}$ oz. \$3.00

Petunia Nana
Compacta Fire Chief

Novelties and Items of Special Merit

VERBENA NEW BUSH TYPE

Roselight. A companion to Salmon Queen and Starlight. An attractive rose pink with a white eye. These grow compact and upright in the introducer's fields but with us here they are somewhat more spreading.

Pkt. \$0.50; 1/4 oz. \$1.50; 1 oz. \$5.00

VERBENA DWARF COMPACT

Pixie. Makes a compact 6 inch plant that is entirely covered with flowers. Its habit is very uniform and the individual florets are large and form compact heads. Pixie is well adapted for borders or pots where the bright scarlet blooms with a cream eye show to advantage.

Pkt. \$0.75; 1/4 oz. \$2.50

SNAPDRAGON

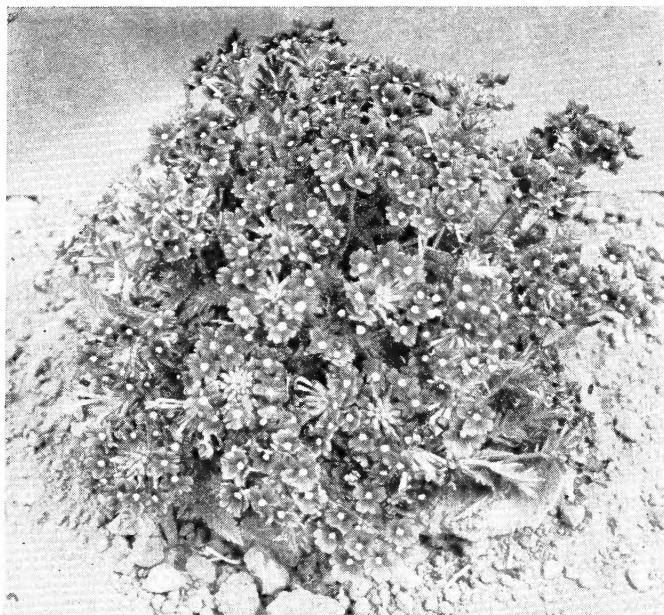

New Hybrid Forcing Jubilee (Winkler). By the introducer of Gold Rush and Maryland Pink. Described by the originator as a light golden bronze shade with overtones of pink. It has very large individual florets and a large full spike. It is very early and free flowering.

Pkt. \$3.00

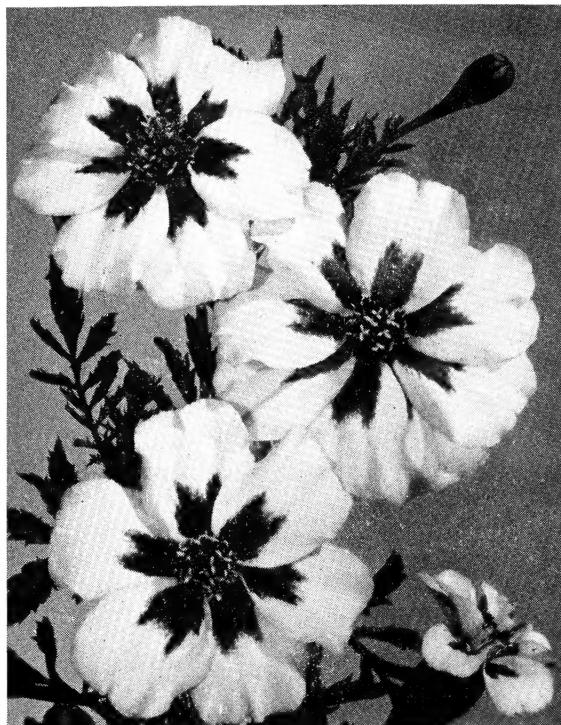

New Hybrid Sunglow (Pan American). This was the first bronze hybrid. We had hoped to have it available for sowing last June but a mishap with one of the parents prevented this. The grower assures us that it will definitely be available this year. The color is a golden bronze shade and it breaks freely and flowers early and throughout the winter. We can recommend it.

Pkt. \$3.00

Seed will be available approximately July 1, 1950.

Verbena Dwarf "Pixie"

MARIGOLD

Naughty Marietta. Not really new but one of those spicy little items that are so universally appealing that we think it is worthy of wider use and have therefore listed it among the novelties. A golden yellow with rich mahogany at the base of each petal makes a striking color combination. Grows 18 inches and the 2 1/2 inch flowers are nice to cut.

Pkt. \$0.35; 1/4 oz. \$0.50; 1 oz. \$1.75

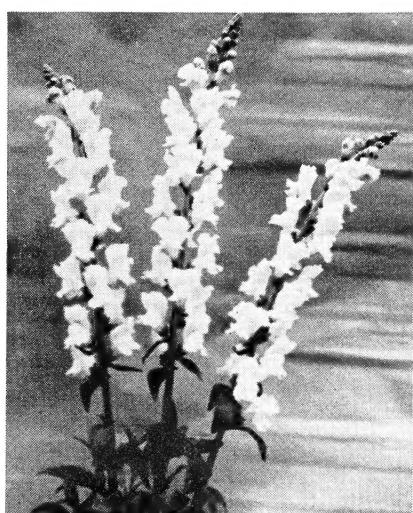

Chrysanthemum Rusticon

Twenty-six (26) Newer introductions are listed and described in our Chrysanthemum catalog. It also contains a year 'round flowering schedule. Be sure to get your copy.

Snaps for Greenhouse Forcing

ORIGINATORS STRAINS

(Varieties Marked * Are the Most Popular)

THE HYBRIDS. These are the result of crossing two line bred varieties. Plants produced from this seed are usually more vigorous, free flowering and uniform. They are profitable, and that is why they are gaining in popularity.

Fringed White Snow Hybrid. The first white hybrid, and really good. As early as Yoder 33, with large florets, well placed on long spikes.

1/2 Pkt. \$1.75; Pkt. \$3.00

Better Times. One of the older hybrids. The color of the Better Times rose, and the habit of Christmas Cheer.

1/2 Pkt. \$1.25; Pkt. \$2.00

Christina. A bright pink shade between that of Mary Ellen and Dorcas Jane. It is earlier than Mary Ellen, and the flowers are larger, and more closely spaced.

1/2 Pkt. \$1.75; Pkt. \$3.00

Christmas Cheer. The popular rose pink, which is a standard.

1/2 Pkt. \$1.75; Pkt. \$3.00

STOCKS

(19000 seeds per oz.)

With labor such a factor, this important cut flower assumes even greater importance. Sowing directly in the bench makes for stronger, more vigorous plants. Careful thinning, selecting the strongest notched leaved seedlings to remain and proper feeding with Greenhouse Vigoro or Hygro (every two weeks until buds form) will assure a high percentage of doubles.

EARLY OR WINTER FLOWERING

A deep rooting crop that does best in deeply dug ground beds although, with good care, they can be produced on raised benches. Many of our growers sow in early July for late fall and early winter crop. September sowing will flower February and March. We recommend using the Spring flowering type for November and December sowing. Varieties marked * have been most popular with our customers.

Have You Considered - -

the advantages of the Bird Tom Thumb flats and bands. Each flat holds 12 bands and the flat and bands make a nice quickly handled package.

You get cheap advertising too if you have the flats imprinted with your name. This costs only \$3.00 per 1,000 additional and the extra satisfaction your customers get from the plants in bands is a real business builder.

SOMERSET'S

Perennial Flower Seeds

There has been a brisk demand for the better perennials during the past few years, and the supply has been inadequate. The cut flower value of some items is considerable, and it is often available at a time when other cut flowers are in short supply.

Seed is a cheap and quick way to obtain a stock of many items. Some items are tricky to germinate satisfactorily, but most can be easily raised when sown in early spring, either in the greenhouse or cold frames. Light freezes will not harm most items, and best results are obtained while the weather is cool. Midsummer sowing is recommended by some authorities, and the seed of many items can be germinated successfully at that time. Greater care, however, is necessary, as weather conditions are less favorable, and under hot humid conditions, results are often unsatisfactory. We shall, at all times, endeavor to give you seed of the best possible strains and viability.

Growing Perennials From Seed—

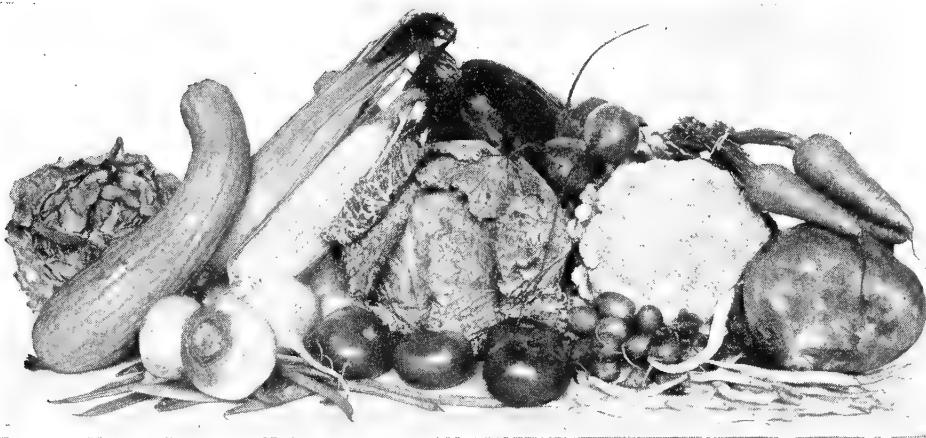

is an easy and inexpensive method of getting a stock of these valuable plants. Many items are better grown from cuttings or divisions but even with these, selection can be made of choice seedlings which can then be propagated in the usual manner.

Seeds of perennials are mostly short lived, and therefore, time and method is important. Midsummer is usually recommended and it has several advantages. Usually the press of work is less at this period. However, most perennials want cool conditions for germination and in those areas where humid and high midsummer temperatures prevail, Spring is best, except for items usually classed as biennial such as Canterbury Bells, Digitalis, Pansy, Myosotis and Viola.

We recommend spring sowing for best results. Light frosts will harm perennial seedlings less than a few days of high temperatures.

Where the work of transplanting is too much in the Spring, most perennials can be sown in open ground beds, in early April, in rows and allowed to stand until late August or early September when they can be transferred to permanent quarters.

with seeds — Sow in sterilized soil. Germination will be improved, damping off and weeds practically eliminated.

We recommend preparing your soil for sowing and transplanting well in advance. Treat with carbon bisulphide at the rate of 2 lbs. to a cubic yard — plus formaldehyde at the rate of 6 lbs. (2/3 gal.) to the cubic yard.

Water the freshly sown seed with Yellow Cuprocide (1 oz. and water 3 gallons). This same solution will control damping off and mildew.

All of these items are offered in the listing, Pages 48 to 53 under insecticides.

SOMERSET'S

Roses

Most of our roses are grown in the shadow of the snow capped peaks and glaciers of the Pacific Northwest where the climate is ideal for their development. We believe there are no finer roses, and they cannot be compared to southern grown stock which is often offered at much cheaper prices.

Prices, except where noted, **\$0.75** ea.; **\$6.50** per 10; **\$60.00** per 100. Tied in bundles of 10, 30 or more at the hundred rate. Where less than 10 of a variety are wanted they will be charged at the each rate.

SOMERSET'S Lawn Grass Seed

OLD ENGLISH LAWN SEED MIXTURE

The result of skillful blending of various fine leaved grass seeds, including Creeping Bent and White Clover, produces a lawn of excellent quality and beauty enduring all season.

5 lb. \$4.25; Bu. (20 lb.), \$16.50; 100 lb., \$72.50

SEASHORE FORMULA

Composed of grasses that will thrive under adverse conditions, such as sand low in fertility and moisture and intense heat.

5 lb. \$4.00; Bu. (20 lb.), \$15.00; 100 lb., \$70.00

SUPERFINE EVERGREEN MIXTURE

This is indeed a superfine lawn mixture including mixed Bents and White Clover. The fine grasses included in this mixture germinate and develop slowly but produce a beautiful permanent lawn when conditions are favorable.

5 lb. \$4.50; 20 lb.; \$18.50; 100 lb. \$80.00

All the above grass seed are offered F.O.B. New Brunswick

SHADY LAWN

Blended of species that have been proven by test to best survive shaded and adverse conditions. This mixture is capable of producing a fine close knit turf under trees, in areaways, etc., where little sunlight is able to get through.

5 lb. \$4.25; Bu. (20 lb.), \$16.50; 100 lb., \$72.50

SPLENDOR LAWN

A moderately priced mixture, containing no White Clover, that is capable of producing a satisfactory sod in a short time.

LANDSCAPE

A thoroughly recleaned, weed free mixture, excellent for a quick sod.

5 lb. \$2.50; Bu. (20 lb.) \$8.50; 100 lb. \$38.00

WHITE DUTCH CLOVER 98% PURE

5 lb. \$7.50; 25 lb. \$35.00

Seed Sowing

This is one of the oldest agricultural operations but it is surprising how often it is done carelessly or improperly. Science has discovered many aids in producing good germination but often they are not used.

The old method of using one part each of sand, leafmold and loam as a sowing medium, is still good, but better results can be obtained if seeds are sown on shredded sphagnum moss or **Vermiculite**. Both of these materials are practically sterile and reduce damping off to a minimum. Where soil is used it should be sterilized with formaldehyde. See under insecticides for directions.

Our Croft Lilies Come From This Field

LILUM REGALE (Washington State Grown)

An excellent and beautiful lily easily grown both out of doors and under glass. Under glass can be flowered in 12 weeks when carried at 60 degrees. Early spring planting out of doors will insure profusion of bloom during the summer when other flowers are scarce. Excellent for the retail florist for floral arrangements.

Size	Quantity Per Case	Per 100	Per Case
7/8"	250	\$10.00	\$27.50
8/9"	200	14.00	25.00
9-10"	100	18.50

GLOXINIAS

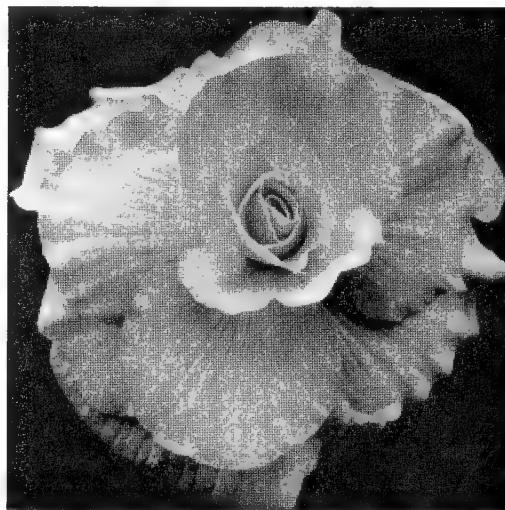

Flowers richly colored and easily grown if a little care is used. Require a loose porous soil. Should be kept shaded, and watered very carefully. Watering with a hose is not recommended as the foliage should be kept dry. It is best to apply water with a watering can examining the plants individually and applying water when needed. Available in the following fine varieties: Size 1 1/2" to 2 1/2" and up.

Begonias

Tuberous Rooted

Attractive and showy these produce excellent reasonably priced pot plants in a short time and they are nice for outdoor bedding in semi-shaded places.

Forcing can be started in February, March or April, depending on time of bloom desired. Soil should be light and porous and the bulbs set to a depth of one inch. Soil should be kept moist but not wet. We offer Belgian grown bulbs ready in January.

DOUBLE CAMELLIA TYPE

The largest and most popular of the double forms. Individual flowers 5-8" in diameter. Nice for corsages and other cut flower purposes. **Red, Yellow, Rose, Scarlet, White, Orange, Salmon, Copper, Mixed.**

1 1/2-2" \$10.00 per 100; \$90.00 per 1000
2" and up \$13.50 per 100; \$120.00 per 1000

PENDULA

Produce great masses of hanging clusters of medium sized double blooms. Nice to cut and for pots.

1 1/2-2" \$10.50 per 100; \$95.00 per 1000
2" and up \$14.00 per 100; \$125.00 per 1000

FIMBRIATA—Double Frilled Carnation Type

Petals are frilled with serrated edges, flowers when in full bloom resemble a Carnation. Colors the same as in the Camellia Flowered Type.

1 1/2-2" \$10.50 per 100; \$95.00 per 1000
2" and up \$14.00 per 100; \$125.00 per 1000

NOTE: On all the above, minimum order 50 bulbs and not less than 10 in any one color.

BEGONIAS—MULTIFLORA TYPE

An old European favorite that is not too well known in the United States. Multiflora Begonias are especially recommended for outdoor group plantings as they are more resistant to the summer heat. The varieties we offer below are extremely free flowering and are suited for forcing in pots as well as for bedding. Culture of the multiflora type is the same as for the tuberous rooted types. Bulbs appear to be deformed but this is a natural characteristic of this type. All bulbs 1-2" in diameter.

	Per 100
Flamboyant. Deep red, very free flowering. Considered one of the best of the multiflora type.	\$13.00
H. Harms. Canary yellow, very free flowering.	16.00
Frene Eysser. Salmon orange, very double.	20.00

Dahlias

The dahlias offered below are grown by dahlia specialists producing this stock exclusively. Our growers have many years experience and take great care to ship only A No. 1 divisions. All fields are given careful attention, and a complete and careful spraying and roguing practice is followed throughout the season. This, of course, assures you that stock purchased from us is free from disease and true to name. Let us supply you with your requirements this year. Minimum order not less than 25 of a variety. Prices subject to change.

SOMERSET'S

Insecticides-Fungicides-Fumigants

Prices subject to change without notice

ARSENATE OF LEAD

A stomach poison used to combat most chewing insects. Because it discolors the foliage it is rarely used under glass.

4 lb. Bag	\$ 1.50
Case 12-4 lb. Bags	15.00

BENZO-FUME PRESSURE FUMIGATORS

Guaranteed to contain not less than 17½% of Azo-benzene. These operate similarly to the familiar Nico-Fume Pressure cans. Recommended for control of greenhouse red spider. Kills the eggs. One pound will treat approximately 10,000 cubic feet. The ease of application and efficiency should make this as popular as the Nico-Fume.

Case 12-4 lb. bags	11.50

BOTANO ALL PURPOSE GARDEN DUST

Controls diseases and insects. Contains the most modern materials.

8 oz. Dust Gun	\$0.79	ea.; Case of 24	\$12.65
2 lb. Refills	\$1.75	ea.; Case of 12 (2 lb. bags)	\$14.00

CARBON BISULPHIDE SOIL FUMIGANT

A cheap and easily applied liquid useful for soil treatment. When placed in the soil it releases a heavy gas that is highly toxic to all forms of insects. When treating beds 1 lb. will treat approximately 16 sq. ft. and 2 lb. a cubic yard of potting soil. The above quantities will kill most weed seeds and some diseases and all insects. It will also condition the soil leaving it in a friable condition. For complete sterilization formaldehyde may be added.

NOTE.—This material is about as explosive as gasoline and the same care must be used in handling it.

10 lb. (1 Gallon)	\$2.50
50 and 100 lb. Non-returnable drums	\$0.15 lb.
550 lb. (55 gal.) Drum09¾ lb.

(55 gal. Drums must be returned in 90 days.)

CED-O-FLORA PLANT SPRAY

Recommended for Mealy bugs even on delicate plants like Coleus where they are hard to eradicate. Will also give a finish and polish to foliage that is highly attractive. Also excellent for spider and scale.

Quart bottles	\$1.50 each
Gallon Jug	5.00 each

CERESAN IMP.

Has been found excellent to control Fusarium Crown Rot and Dry Rot on Gladiolus. Use at the rate of 1 lb. in 25 gal. of water, plus 5 tablespoons Grasselli Spreader. For Calla Rot soak bulbs 1 hour in a mixture of 1 lb. to 50 gal. of water and 10 tablespoons full Grasselli Spreader.

DETEX

A 25% DDT spray that has been very favorably received. Because of other ingredients besides DDT, Detex has a strong deterrent effect on red spider although it is not recommended for this pest. Compatible with most fungicides it controls both major and minor greenhouse pests.

Quart	\$ 3.00
Gallon	10.00

50% WETTABLE (D.D.T.)

A wettable powder containing 50% D.D.T. which mixes readily with water and can be used for spraying crops, animals and farm buildings. Recommended dosage for horticultural crops is 1-2 lbs per 100 gallons. Used in this manner it leaves little visible residue. For spraying walls and ceilings to control flies and mosquitoes a concentration of 1 lb. per gallon is suggested. Also may be used as a dip for livestock and poultry at lighter concentrations.

VIGORO

COMPLETE PLANT FOOD

Increased fertilizing units — Same price.

Soil is a complex combination of chemical elements. Often some element, that plants need, is lacking or not available. Such soil deficiencies are more common than realized. Vigoro contains all the major and minor elements needed for optimum plant growth. The cost is only slightly more than ordinary fertilizer.

NOTE.—Delivered prices are for New Jersey and portions of New York. Other areas are slightly different due to freight differentials.

BIRD Vita-Bands

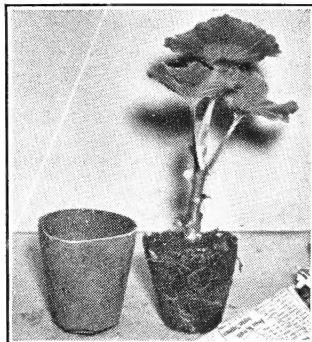

VITA-BAND 40: Growers are reporting outstanding results in vigorous well-balanced growth. Balanced plant food calendered on inside of band. Transplanting shock eliminated, saving 1 to 3 weeks set-back. Sturdy fibre resin construction maintains best moisture conditions with watering frequency cut 50%. Save space and growing time. Quick set-up and rapid removal.

VITA-BAND 10: Designed for growing periods of 8 to 10 weeks. A low-cost nutrient saturated band especially good for annuals and vegetables. Produces growing results similar to Vita-Band 40.

BIRD Red & Vita POTS

RED: For shipping only. Not recommended for growing. Lightweight and sturdily made to protect rootball from breakage—inner wax coating prevents drying out. A "must" to preserve the top quality of your plants in transit. Delivering quality promotes repeat business.

VITA-POTS: For growing and shipping — they are nutrient treated. Growing results are similar to Vita-Bands. VITA-POTS prevent rootball disturbance. No handling and storage of heavy pots. VITA-POTS can be packed quickly and easily for shipment.

Cloverset Pots

These have many advantages. They are light and cheap enough so that they can be included with the plant. Frost will not crack them. They require less watering than clay pots and plants grow better. Use No. 0 for perennials and greenhouse use, No. 1 for perennials, No. 2 for roses and shrubs, No. 3 and No. 4 for large shrubs, trees and evergreens.

TERMS OF SALE

DISCLAIMER. We, Somerset Rose Nursery, Inc., give no warranty expressed or implied, as to description, quality, productiveness or any other matter of any seeds, roots, bulbs and plants we sell, and we will not be in any way responsible for the crop. If the purchaser does not accept the above items on these terms, they are at once to be returned and the money paid for same will be refunded promptly.

Under present unsettled conditions, it is obviously impossible for us to guarantee that prices listed in this catalog shall be final for the year 1950. We shall make every effort to hold the line but we reserve the right to change any or all prices without notice.

NOTE CASH DISCOUNT: On all flower seed orders where cash accompanies the order 5% may be deducted. For all orders over \$25.00, 8% may be deducted. Vegetable and grass seeds, plants, insecticides, and supplies are not subject to this discount.

All seed orders are sent prepaid except for beans and corn and a few other heavy items in vegetable and grass seeds.

Shipment will be sent in the manner we judge most efficient unless otherwise instructed. Perishable items are usually best sent by Express. Parcel Post shipments travel at purchaser's risk.
